

Interflon G-Coupler

Hands-free power coupler for use with any grease gun or grease pump, manual, air and electrical (battery).

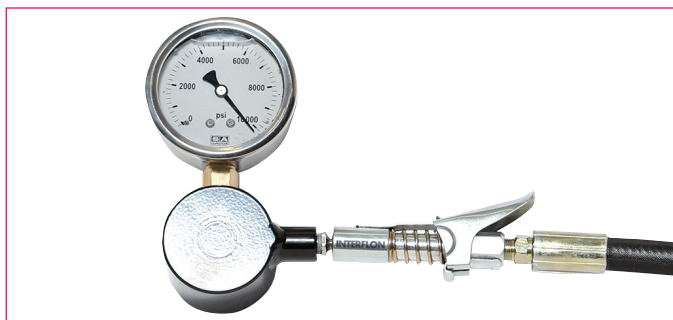

- Hands free greasing
- No leaks – even at extreme angles
- No more grease spillage
- Grease goes IN the machine not ON the machine
- Integrated check valve to reduce leakage
- Durable, specially formulated TPU seal for long term, high pressure use
- Four hardened spring steel jaws that are resilient under high pressure
- Spring operated lever, allowing easy release when pressurized
- Lightweight and compact
- Precision milled steel components
- Greasing up to 690 Bar (10,000 psi)

- Locking: Simply depress the lever and push the coupler onto the grease nipple (zerk) and release the lever

- Unlocking: Simply depress the lever and pull the coupler off

Article Number	 Thread size
7194	M10x1
7195	1/8" BSP

INTERFLON

- Easy clip-off, regardless of pressure build up in the line. NO MORE stuck couplers
- No need to hold while greasing. Lock-on and free up both hands to operate your grease gun
